

You are invited to partner with us in the

Buy Back Jamaica Campaign

For too long our prime beach-front properties have been owned and operated by foreign interests.

It's time that Jamaica is owned by Jamaicans. You now have the opportunity to be co-owners of beach-front properties across the island.

We are embarking on a drive to purchase and develop properties along our coastline and allow for public access to the beaches. The properties will be developed with restaurants and other facilities for great entertainment. And you can be a part of this, as co-owners of these prime estates.

Benefit from attractive profits, while owning your share of the rock. Contact us for more information.
